

## Assignment 03

### *1) Does ANSI recognize the data type DATE?*

--→ Yes. It has two formats in which we can enter date

i) YYYY-MM-DD

ii) YY-MM-DD

in second case if we pass year between 70 to 99 it takes as 1970 to 1999 and for year between 01 to 69 it takes as 2001 to 2069 because 1970 is cutoff year when unix operation system was developed.

### *2) Which subdivision of SQL is used to insert values in tables?*

→ *Dml (data manipulation language) command insert is used to insert values in table*
